Question No. 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You plan to install an update to an Azure Stack Hub integrated system.

You need to verify whether the integrated system is healthy, and whether you can apply the update. You must achieve the goal as quickly as possible.

Solution: From the administrator management endpoint, you run

```
Test-AzureStack --Group "UpdateReadiness".
```

Does this meet the goal?

- A. Yes
- B. No

Answer: B

Question No. 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You plan to install an update to an Azure Stack Hub integrated system.

You need to verify whether the integrated system is healthy, and whether you can apply the update. You must achieve the goal as quickly as possible.

Solution: From a privileged endpoint (PEP) session, you run

```
Test-AzureStack --Group "UpdateReadiness".
```

Does this meet the goal?

- A. Yes
- B. No

Answer: A

Question No. 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You plan to install an update to an Azure Stack Hub integrated system.

You need to verify whether the integrated system is healthy, and whether you can apply the update. You must achieve the goal as quickly as possible.

Solution: From a privileged endpoint (PEP) session, you run

```
Test-AzureStack --Group "Default".
```

Does this meet the goal?

- **A.** Yes
- **B.** No

Answer: B

Question No. 4

You have an Azure Stack Hub integrated system.

You need to give a new operator access to the privileged endpoint (PEP) as soon as possible.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- **A.** Run the New-CloudAdminUser cmdlet.
- **B.** Run the New-AzureADUser cmdlet.
- **C.** Connect to the PEP.
- **D.** Connect to and unlock the PEP.
- **E.** Connect to the administrator management endpoint.

Answer: A, C

Question No. 5

You have an Azure Stack Hub integrated system.

The retention period for storage accounts is set to 10 days.

In a user subscription, a user deletes a virtual machine that has four 500-GB unmanaged disks attached.

How will the storage be reclaimed?

- **A.** The deleted storage can be reclaimed immediately by using the administrator portal.
- **B.** The deleted storage can be reclaimed immediately by using the user portal.
- **C.** The deleted storage can be reclaimed only after 10 days.
- **D.** The deleted storage will be reclaimed automatically in 10 hours.

Answer: A
