Question No. 1

You have a Microsoft Exchange Online tenant.

You need to perform an In-Place eDiscovery search. The solution must meet the following requirements:

Minimize administrative effort.

Search both public folders and mailboxes.

Use an In-Place Hold to place the search results on hold.

What should you do in the Microsoft 365 compliance center?

- **A.** Search the public folders and the mailboxes in a single search, and then place the results on In-Place Hold.
- **B.** Search the public folders first, and then place the results on In-Place Hold. Search the mailboxes second, and then place the results on In-Place Hold.
- **C.** Search the public folders and the mailboxes in a single search. Once the search completes, place only the mailboxes that contain results and the public folders on In-Place Hold.

Answer: A

Question No. 2

You have an Exchange Online tenant.

You need to ensure that the users in your company's finance department can select email messages that will be deleted automatically one year later. The solution must apply only to the finance department users.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- **A.** Publish a label to the finance department.
- **B.** Create a data loss prevention (DLP) policy that uses the sensitive information type.
- **C.** For each mailbox in the finance department, configure the retention policy settings.
- **D.** Create a label that has a retention setting of one year.
- **E.** For each mailbox in the finance department, configure Message Delivery Restrictions.

Answer: A, D

Question No. 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

Several users in the finance department of the company recently accessed unsafe websites by clicking on links in email messages.

Users in the marketing department of the company report that they must be able to access all the links embedded in email messages.

You need to reduce the likelihood of the finance department users accessing unsafe websites. The solution must affect only the finance department users.

Solution: You create a new safe attachments policy.

Does this meet the goal?

- **A.** Yes
- **B.** No

Answer: B

Question No. 4
